The second edition of the technical congress Next Wood will be held on May 27, 2020 at 9.30 am. The current problems and future prospects of the wood surface coating sector will be considered with a special focus on the following subject:

THE ANSWERS OF THE MANUFACTURERS OF COATINGS AND PLANTS TO THE CHALLENGE OF THE OTHER COVERING MATERIALS (IMPREGNATED PAPERS, LAMINATES AND POLYMER FOILS) IN THE FURNITURE INDUSTRY.

The congress - organized on the occasion of the 27th edition of Xylexpo the biennial fair of technologies and supplies for the furniture and wood industry - will be held at the Xylexpo Arena in Fieramilano-Rho (26-29 May 2020) and will take place in two consecutive sessions of 90 minutes each, dedicated to:

- coating materials
- coating plants

Each session will begin with an "open" round table in which 4 speakers will have 10 ' / each to introduce their point of view and answers.

2 presentations of 15 ' / each will follow. They will be chosen by the scientific committee among those presented in response to the call

CALL FOR ABSTRACT

Research centers, producers of raw materials, coating products, systems and users are therefore invited to submit proposals relating to the title of the congress, identifying, in particular, the challenges and answers that the world of coatings and their application must face in a market in constant evolution and where other finishing materials are often preferred. In particular, the proposed topics could consider:

- Marketing choices
- The green coatings market
- Nanotechnologies between idea and reality
- Digital printing between past, present and future
- The digitalization of application processes and plants
- The advantages of coatings compared to other covering materials
- The advantages of covering materials compared to coatings
- The plant adaptation

Proposals, in Italian or English, of a maximum of 15 lines, must include:

- title, speaker, company / institution to which they belong.

Deadline for submitting proposals: 29 February 2020.

Notification of acceptance: 15 March 2020.

A scientific commission set up by the organizing bodies will select the eight proposals (four for the coatings and four for the plants) which will be part of the initial round table of the two sessions with a maximum of 5 slides each. The eight presentations in power point (pptx) must not contain an excessive presentation of the group they belong to or their products. All the other unselected proposals will still be mentioned during the meeting, being able to be recalled during the debate by the proposers who will be invited to attend the meeting.
